📄 Summary

Frontend engineer with 3 years of experience in business applications and WeChat mini programs. Proficient in React, TypeScript and reusable components, with experience taking features from requirements to release and improving usability and performance.

📁 Experience

- Xinghe Technology (example)

Hangzhou, China

Frontend Engineer

July 2023 – Present

 - Built order management, customer profiles and dashboards with product, design and backend teams.
 - Built reusable forms and tables, reducing routine page development time by approximately 30%.
 - Reduced initial loading time from 3.2 to 1.8 seconds through route splitting, lazy loading and API improvements.

📁 Internship

- Zhixing Digital (example)

Hangzhou, China

Frontend Intern

July 2022 – March 2023

Developed forms, lists and responsive pages for an internal platform and supported testing and fixes.

🔗 Projects

- WeChat Store Booking Mini Program

March - August 2025

 - Led frontend development with Taro, React and TypeScript for store search, bookings and order tracking.
 - Improved error feedback, duplicate submission handling and form validation.
- Customer Management and Business Dashboard

April - December 2024

Built filtering, exports and analytics using React, Ant Design and ECharts, aligning metrics across departments.

🎓 Education

- Jiangcheng Tech University (example)

Bachelor of Engineering · Top 15% of class (example)

Software Engineering

Hangzhou, China · September 2019 – June 2023

Coursework: Data Structures, Databases, Software Engineering, Computer Networks and Web Development.
